But all of our spas have this in common: they deliver an outstanding experience. Simply being here—away from the chaos of everyday life—relaxes our guests and starts them on their energy journey.

Our spa experiences combine authentic and effective treatments with a place for you to spend time alone or with your friends. Social spaces by the pool, relaxation lounges and steam rooms, yoga and fitness areas— all are designed to stir our passion for living with abundant energy.

Our name: Willow Stream

We believe these two words reflect our philosophy and our connection to nature's elements.

Willow: The willow represents our deep-rooted authenticity, strong centre and flexible spirit.

Stream: The stream represents our energizing journey through life— bending and changing in a peaceful, purposeful manner as it finds its way around obstacles.

Our logo: Our logo is composed of ancient symbols for the world's essential elements: earth, air, fire and water. The willow—wood—is the fifth element. Balancing these elements puts us in sync with nature's equilibrium.

Hydrotherapy Experiences

Steam Room Wellness

Maintained at 42-45°C, this humid, aromatic heat experience is highly beneficial for those that suffer from asthma and bronchitis, as it opens up the breathing passages and alleviates congestion. We recommend that a session last 10-15 minutes and that you keep your body well hydrated afterwards. Humid heat is especially beneficial before or after a massage treatment to increase circulation.

Sauna Wellness

Maintained between 80-85°C, this dry heat soothes and warms the muscles, relieving tension from your body and minimising joint pain. This is especially beneficial for those who suffer from illnesses such as arthritis, painful migraines, and headaches, or as a way of warming the body after an intense workout or treating the common cold. Dry heat is recommended for 10-15 minutes daily and it is important to ensure that your body is kept well hydrated afterwards.

Ice Fountains

Ice Fountains temperatures range from 4-15 degree Celsius.

After exposure to a hot environment, crushed ice can be applied to limbs gently to selectively cool the body, speed up the body cool down process, and dilate the blood vessels to decrease blood pressure.

Experience Showers

Experience showers have a unique variety of multi temperature water sequences, combined with soothing warm and cold jets to relax the body.

Indoor Swimming Pool

Located on Spa (S) floor and bathed in natural light, the indoor pool is the ideal spot for rest and relaxation.

Authentic Experiences: The History of Hammam in Turkey

The Ottoman Empire, now the Republic of Turkey, has inspired the world throughout history and one of its legacies that we have embraced here at Willow Stream Spa, Fairmont Quasar Istanbul, is the essence of “The Turkish Bath House” better known as “The Hammam”, an integral part of Ottoman culture and society for centuries. The main reason hammams became a fundamental part of Ottoman culture was the faith itself. However, these marble “temples” also helped create a social atmosphere, consisting of bathing, massage and chatting. Enjoying the company of friends and making business contacts were important reasons for hammams’ popularity. They were also places where Ottoman women could socialise outside their homes, participate in a wedding Hammam, an engagement Hammam and many other special occasions that brought friends together.

Ultimate Rose Geranium Hammam Dream – 90 minutes

Experience our luxurious hammam treatment, using the benefits of rose geranium. Enjoy the traditional “kese” scrub followed by a rose foam bath, next luxurious hydrating ingredients are applied and smell of rose geranium, oils of sweet almond, sunflower seed and sweet orange peel extract envelops your body. A relaxing body massage culminates the treatment. Wake up feeling energized and uplifted.

Turkish Coffee and Body Cream – 60 minutes

A popular Turkish hammam ritual that begins with a light “kese” scrub followed by a fresh concoction of Turkish coffee scrub, coffee has the ability to extract excess fluid in the body, making it an unrivaled tool against the fight with the cellulite. The treatment follows with a refreshing hair wash, hair cream and application of body cream leaving you feeling soft and silky.

Turkish Hammam – 45 minutes

A unique hammam treatment with roots in ancient Turkish traditions offers a cleansing, detoxifying journey with an ultimate sensory experience. A short body massage featuring warming water, full body “kese” scrub and unique clouds of cleansing bubbles is performed. Later, your hair is cleansed with shampoo and conditioner.
